6. On a scale of 1 to 10, how committed are you to graduating from this program (10 is most committed, 1 is least committed)? Explain why. 10, I'm too poor to spend 4000\$ on something and not make at least that much back
7. On a scale of 1 to 10, how committed are you to finding employment as a software developer (10 is most committed, 1 is least committed)? Explain why. 7, my goal is to be an entrepreneur and this is one of the skill sets I think will be valuable in the future. If I am able to reach my vision of owning a media brand that deals in multiple other brand related products without my coding abilities that would be cool, but I believe a job in software will provide me with a good back bone and the ability to garner capital.
